IGLOO ICE FISHING TENT

A quick-opening POP-UP style winter tent from Asseri. The tent frame is built into the fabric, allowing the tent to be set up and folded down quickly, in just a few minutes. To make opening easier, each side of the tent has special loops that can be pulled to unfold the tent easily.

Features:

- One side of the tent has an opening entrance with a durable zipper.
- A ventilation opening is located at the top of the tent.
- The tent comfortably accommodates three people.
- The set includes a carrying bag, ice pegs and guy lines.
- Frame: fiberglass
- Material: 150D polyester

IGLOO SUITE ICE FISHING TENT

The Asseri Igloo Suite pop-up tent is an ideal solution for comfortable winter fishing. Its three-layer material (300D polyester, thermal insulation layer, 190T inner fabric) provides excellent durability, a long service life, and effective protection against cold and wind. The unique design combined with practical functionality makes this tent an excellent companion for any angler.

Large removable windows on both sides provide excellent visibility even while sitting inside the tent. The windows can be covered with insulated window panels for additional thermal protection. The integrated frame allows the tent to be set up and folded down quickly. Special hubs in the tent walls and roof make the setup process easy and convenient.

The durable insulated outer material not only protects against water but also helps block the wind. The tent features a highly visible exterior design with numerous reflective elements for better visibility in low-light conditions. The interior is finished in lighter, more subdued tones to make longer stays inside more comfortable.

The entrance door is equipped with a durable zipper and protected by a rain and snow flap. A hook-and-loop fastening allows the door to be secured to the tent wall when open.

The tent is suitable for use with a tent stove. A dedicated stove-pipe opening is located in the roof and can be closed with a convenient Velcro fastening. Two ventilation openings on the sides ensure a supply of fresh air.

The tent comes packed in a convenient carrying bag for easy storage and transport. Inside, there are storage pockets for fishing gear as well as a ceiling attachment point for a lamp.

Features:

- Three-layer material
- Waterproof rating: 2000 mm
- Stove-pipe opening with cover flap
- Entrance door with durable zipper
- Ventilation openings in the side walls
- Fiberglass frame
- Package includes: tent, carrying bag, pegs, ice anchors and guy lines

AUGER MOTORIZED

Asseri Power Auger 150 mm / 210 mm / 250 mm – a reliable motorized ice auger for cold conditions.

The Asseri Power Auger combines a FORCE AMERICAN STANDARD ENGINE with an Asseri auger and reduction gearbox. The Force Powerhead is designed for cold Nordic conditions, ensuring reliable starting in low temperatures. The engine is connected to a durable Asseri reduction gearbox, which links the motor to the auger. The auger is available in diameters of approximately 150 mm / 210 mm / 250 mm, and its length is sufficient even for thick ice. The blades are hardened and remain sharp for a long time when used correctly. The 210 mm and 250 mm models have a centering point in the middle of the cutting head, which keeps the auger in place when drilling several holes close together. This is especially useful, for example, when fishing with nets.

ICE AUGER

Asseri

Asseri is a high-quality ice auger with a folding handle. It has a diameter of 130 mm and an auger flight length of 600 mm. The drilling depth is over 1000 mm, and the total length of the auger is 1500 mm. The folding mechanism is strong and durable, and the plastic parts of the wing nuts are resistant to freezing temperatures. For transport, the auger can be folded down to a length of only 75 cm. A plastic blade guard is included as standard.

ICE LINE

Fluorocarbon-coated fishing line with a nylon core provides excellent abrasion resistance and good knot strength. Thanks to its low stretch, the line also offers excellent sensitivity when playing fish. The soft yet strong material combination is nearly invisible to fish and has very low stretch. Its softness also makes it easy to tie to lures.

- The Anti-Frost coating helps prevent the line from freezing.
- An almost perfect fishing line for winter fishing.
- Available in two colors: red and clear.
- Choose the best – choose ASSERI.
- Supplied on 30 m spools.

Asseri Thermo+

Tested in the hard polar conditions!

Stay active. Stay warm. Wear Asseri

THERMO+

A high-quality product designed for an active lifestyle. Whether in winter or summer, this garment provides excellent comfort and performance for outdoor activities. It is sure to become a favorite outfit that you will want to wear whenever heading outdoors.

Polyester effectively transfers moisture away from the skin, while merino wool helps retain warmth. The unique knitting technique enhances comfort and allows the benefits of both materials to perform at their best.

- Two-layer knit construction
- Excellent moisture management
- Flatlock stitching
- Warm and durable
- Asseri polyester offers excellent abrasion resistance and durability
- Soft and lightweight
- Suitable for: hunting / fishing / extreme activities / work / other leisure activities

Composition:

Outer layer: 80% Merino wool, 20% polyamide

Inner layer: 100% polyester

TPE BOTTOM

Here it is!

- Kevyt evakenkä Asserilta
- Lightweight EVA boots from Asseri.
- The EVA material stays flexible in cold conditions, while the thicker sole helps prevent cold from penetrating from below and provides additional protection on rough terrain.
- The EVA construction and removable felt liner help keep the cold out. The thick, breathable inner boot contains 40% wool and features a foil layer for added thermal insulation.
- Adjustable snow cuffs at the top of the boots help keep snow out.
- Target users: ice fishermen, moose hunters and other outdoor enthusiasts.

Lining: 25% SHEEP WOOL

LIGHTWEIGHT

BREATHABLE INNER SOCK

TESTED IN THE HARD POLAR CONDITIONS!

EVA BOOTS -40°C

Versatile and comfortable footwear for year-round use. Made from high-quality EVA material, which provides excellent thermal insulation while keeping the boots waterproof and lightweight. Features a removable liner, a shock-absorbing heel and a slip-resistant sole. The soft turned-down retro-style collar completes the design.

Recommended use: around the yard, field and garden, as well as for fishing and outdoor activities.

Care instructions: Clean dirty boots with mild soapy water. If the boots get wet, remove the liner and let it dry separately, then wipe the EVA parts dry with paper or a cloth. Avoid drying the boots in a sauna or other excessively warm places, as too much heat may cause the EVA material to shrink.

ALL SEASON CAMPING GAS

Arctix All Season Camping Gas is designed for camping stoves, burners and other compatible gas appliances. The isobutane / propane mix provides reliable performance in both warm and cold weather, making it suitable for year-round outdoor use.

Available in two connection types:

- Bayonet cartridge – 220 g
- Threaded cartridge – 230 g / 450 g

The 230 g and 450 g threaded cartridges comply with **EN 417** and are suitable for use with compatible appliances conforming to **EN 521.**
